

The **three steps** to becoming Real Schools Partner ...

1

Step One -

Choose your improvement theme

Real Schools believes that genuine cultural shifts can be made in any and every school – but it takes focus. We provide three themes that you can choose from to get started.

- 1. School Culture Leadership** – leadership focused Partnerships designed to transform the practice of the most influential people and teams in your school.
- 2. Behaviour Management** – developing a culture of productive, relational, effective and deprivatised practice across your school. We talk a great deal about getting on the same page about practice ... it's time we wrote it.
- 3. Restorative Practices** – the single most powerful tool at your disposal to build better relationships and more connected school communities.

Step Two -

- 2. Advanced Partnerships** – 24 Month associations that are determined to achieve measurable, high level contribution to your Partnership Theme, School Culture and Strategic Intentions.
